

2021 NAPA VALLEY WHITE WINE

The Year

The 2021 vintage will be remembered for low yields with intensely flavored, small-sized fruit and a smooth growing season. We saw rain in January and February, then almost no notable rainfall for the rest of the season, which provided an ideal environment for grapes to flower. Budbreak was early in April followed by bloom in May and even ripening in the summer. Harvest began early with white wine grapes being picked at the end of July, one of the earliest starts on record.

Winemaker Notes

This year's vintage is medium bodied with exceptional purity and freshness. Flavors of green apple, lemon and citrus come together on the palate, while the finish highlights balanced acidity with layers of rich polished fruit.

Blend

Chardonnay & Sauvignon Blanc

Aged in a combination of French Oak and stainless steel

Alc./Vol. 13%
